SHANDONG CHENGGE BUILDING MATERIALS CO.,LTD

ALUMINUM COMPOSITE PANEL

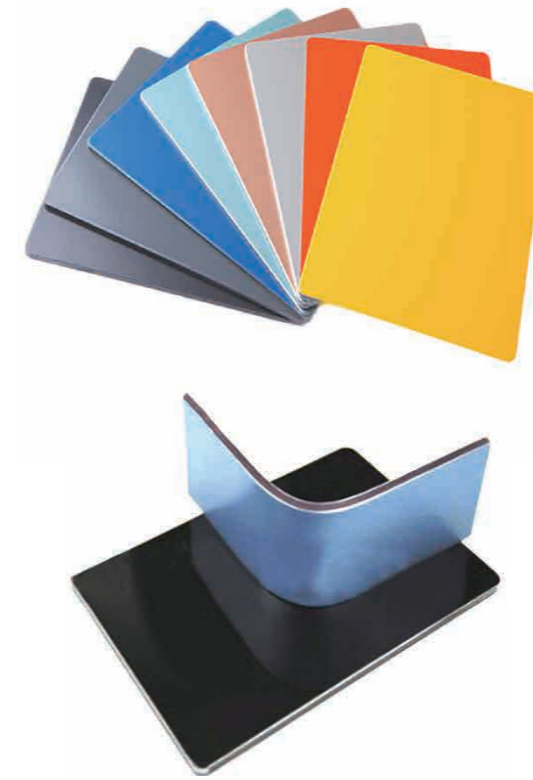

COMPANY PROFILE

NEWCOBOND® brand belongs to Shandong Chengge Building Materials Co., Ltd ,which is a leading ACP manufacturer that located in Linyi city, Shandong province, China.

Since founded in 2008, we have been focusing on supplying perfect aluminum composite panel to clients around the world. We own three advanced automatic production lines, more than 100 employees, and 20, 000SQM workshop, our annual output achieve 7000, 000SQM panels which valued about 30 millions dollars.

We provide PE/PVDF/Printable/Mirror/Brushed/Fireproof/Nature series ACP, with broken and unbroken core material. There are hundreds specifications for options and all RAL & PANTONE colors are available. OEM and customization are also our advantage.

NEWCOBOND® ACP has been exported to more than 40 countries, such as U.S.A, Brazil, Korea, Mongolia, UAE, Katar, Oman, Turkey,Afghanistan,Armenia,Nigeria,Kenya, South Africa, Indonesia,India, the Philippines etc.

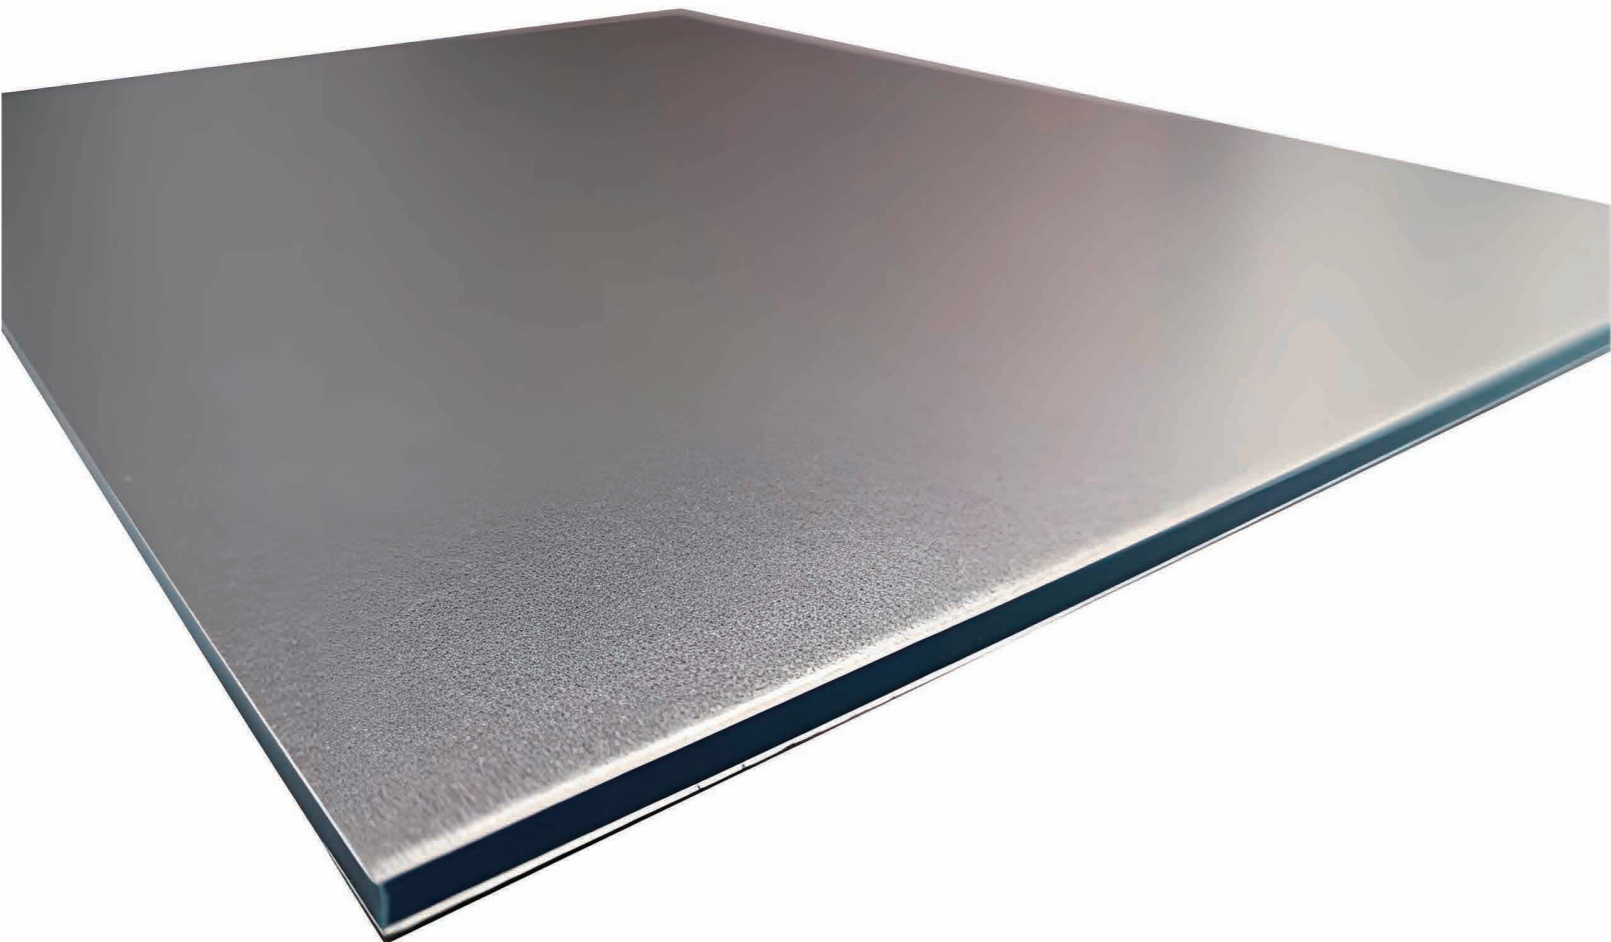

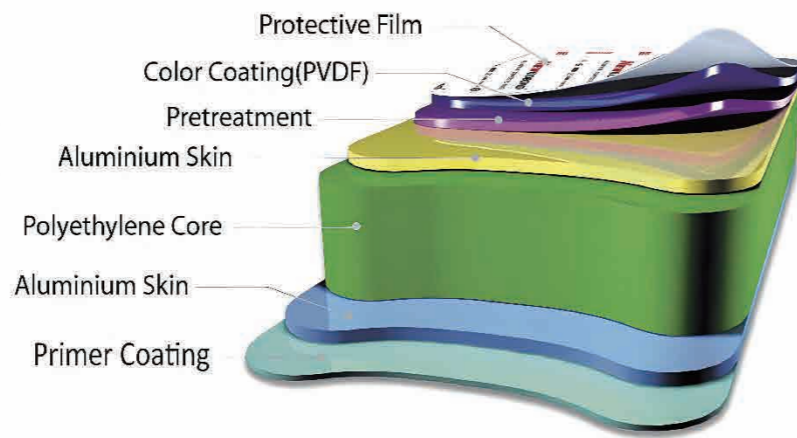

NEWCOBOND® PE coating series includes high glossy colors , matt colors, metallic colors and nacreous & wood colors. All of them are coated by PE paint on the surface, it can provide excellent quality performance and high cost performance. NEWCOBOND® PE series ACP can bring you more pleasant and bright feeling.With excellent flatness and durability of color lasting, they can be widely used for construction external cladding wall, building facade, outside decoration for shop and mall. We use primer PE coating to achieve outstanding weather-resistance, color guarantee is up to 5-10 years. Popular thickness is 3mm and 4mm panel with 0.12mm, 0.15mm,0.18mm,0.21mm 0.3mm 0.4mm aluminum foil.

NEWCOBOND® PVDF series ACP are specially produced for exterior wall claddings. They are made of quality aluminum foil and LDPE core material, the aluminum surface are coated with PVDF paint which can bring excellent weather-resistance performance. Color warranty is up to 20-30 years, the color will not fade during guaranteed time. They are widely used for hotels, shopping malls, school, hospital, office building cladding, traffic stations and many other projects.

We accept OEM and customization requirement, no matter which specification and what color you want, NEWCOBOND® will give you satisfying solution for your projects

NEWCOBOND® Printable series ACP are especially used for signage and advertising billboard. The surface has been coated by UV coating which can ensures its excellent lasting adhesion to the printing ink, so the color performance is very durable and lifelike no matter we print words or pictures on the panels.

NEWCOBOND® Printable series ACP panels use clean and pure PE plastic material to improve the flatness and cleanness of panel's surface. Besides, it has many other advantages such as excellent weather-resistant, unbreakable performance, outstanding peeling strength and high intensity.

Popular thickness is 3mm panel with 0.12mm, 0.15mm, 0.18mm, 0.21mm, 0.3mm aluminum foil.

NEWCOBOND® Fireproof aluminum composite panel are made of fireproof core materials and prime aluminum foil, used for the projects that have requirement for fire-proof.

Our fireproof ACP meet B1 or A2 fire rated standard. Excellent fireproof performance makes them become one of very popular fireproof building materials around the world, widely used for hotels, office buildings, school, hospital, shopping malls and many other projects.

Since founded in 2008 year, NEWCOBOND® fireproof ACP have been exporting to more than 20 countries and recieved very good reputation because of its outstanding fireproof performance and high cost efficiency.

Popular thickness is 4*0.3mm/4*0.4mm/4*0.5mm, size can be customized according to project's requirement.

检验检测报告

报告编号: A30114001802

产品名称: 普通装饰用大型复合板

委托单位: 上海吉祥新铝塑板有限公司

生产单位: 上海吉祥新铝塑板有限公司

检验结论: 经检验, 所送样品性能符合 GB/T 22412-2020 中 B1、A2 类要求。

NEWCOBOND® Mirror series ACP is an ideal decoration material for building.

Our mirror series contains gold mirror, silver mirror, copper mirror, grey mirror, tea mirror, black mirror, rose mirror etc.

Mirror finish ACP use advanced anodized technology, it makes the aluminum surface as bright as real mirror. Because of the fact that mirror coated panels present quite diverse options, that is the popular choice for decoration and building cladding use now.

The mirror face aluminum foil thickness can be 0.1-0.5mm, and the panel size can also be customized.

NEWCOBOND® Brushed series aluminum composite panel has excellent brushed performance that you can feel the lines by touching it with fingers.

Our brushed aluminum composite panel is lightweight and easy to process. Its superior construction performance can be cut, edged, bent into a curve and right angle with simple woodworking tools, and the installation is simple and quick.

We provide gold brushed, silver brushed, copper brushed, black brushed, grey brushed options and even printable brushed ACP!

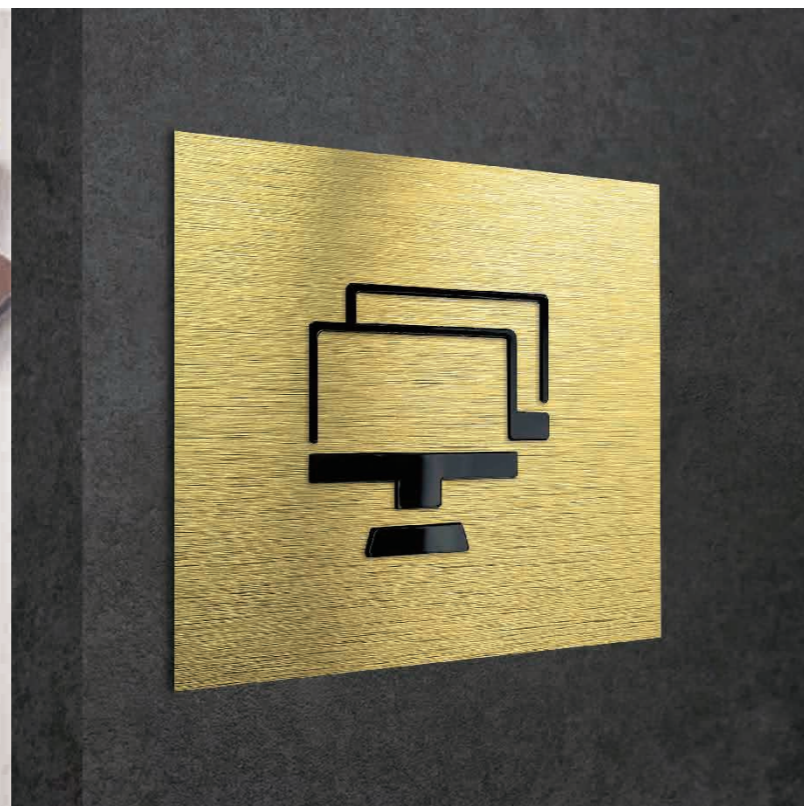

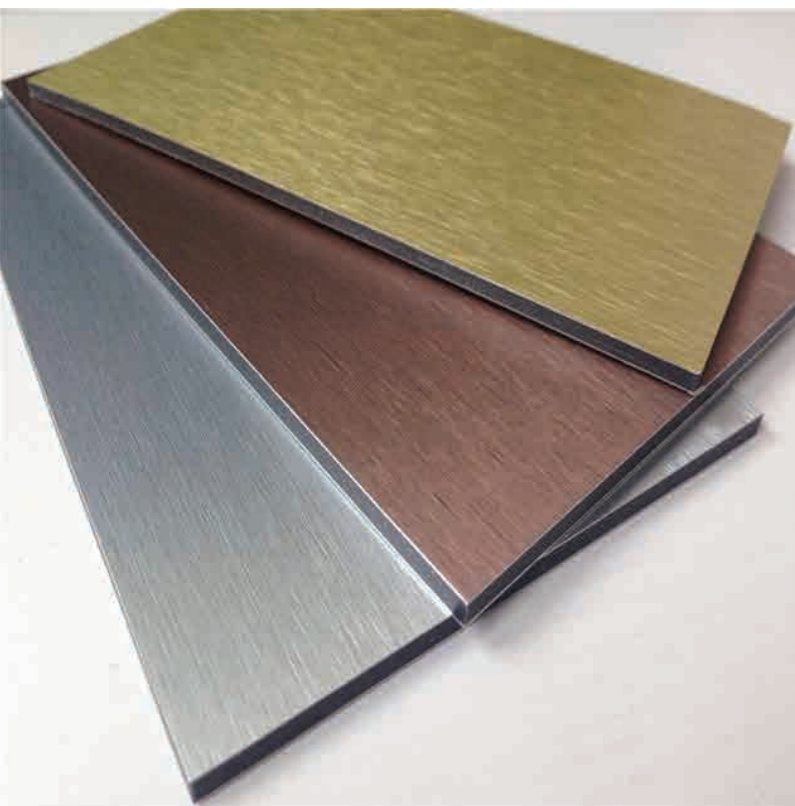

NEWCOBOND® Natural series ACP include wood colors and stone colors.

With transfer a unique image process over a color base coat. The result is natural coloring and grain patterns. A clear top coat protects the natural panels appearance for ensuring quality even applications exposed to harsh weather.

NEWCOBOND® natural series ACP allows architects to incorporate the beauty of natural series products in a lightweight aluminum composite sheet that is long-lasting and easy to maintain.

As wooden panels and marble series represent nature which develops an interest in people in this specific product as all the necessary features are covered along with natural look and feeling.

ADVANTAGES

ENVIRONMENTAL FRIENDLY

NEWCOBOND used recyclable PE materials that imported from Japan and Korea. Composite them with pure AA1100 aluminum, it's totally non-toxic and friendly to environment.

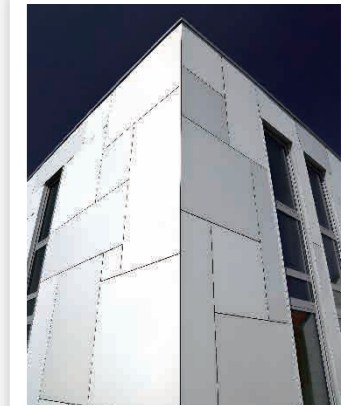

EASY PROCESSING

NEWCOBOND ACP has good strength and flexibility, it's easy to transform, cut, fold, drill, bend. Easy installation make it popular building cladding materials

WEATHER-RESISTANT

NEWCOBOND ACP surface treated with high grade ultraviolet resistant polyester coating, guarantee 8-10years. You can also choose PVDF paint, which can guarantee up to 15-20 years.

OEM SERVICE

NEWCOBOND can supply OEM service, we can customize size and colors for clients. All RAL colors and PANTONE colors are available
